Scenario 1

You have made a new friend from Colombia who still doesn't speak much English. One day after school you decide to go to City Creek. While there, you see all kinds of art, including paintings and sculptures, both inside of shops and on the plaza. You point out a particular art piece that you feel a strong reaction (positive or negative) to! Tell your friend:

- Which art piece you like the most / dislike the most (is it a sculpture, a painting, a drawing, etc?).
- Describe specifically what it looks like and what about the colors, form and design you like/dislike the most.
- Explain why the piece interests/fascinates you—how does it connect to you, either with a positive or negative reaction?
- Describe or narrate what the piece reminds you of and why.
- Explain how the piece of art makes you feel.
